

Collage starting cards

Choose one small task. Use your own scraps. Cut the six rectangles.

One saved moment

One scrap, one plain label.

Place the scrap off-center. Add a place or date on the label.

Stop when both pieces can be read.

A quiet window

One frame-shaped scrap, one picture.

Place the frame over one detail in the picture. Keep the rest plain.

Stop when there is one clear focal point.

Two textures

One smooth scrap, one rough scrap.

Overlap their edges. Leave at least half your base visible.

Stop after adding one handwritten word.

A tiny timeline

Three small scraps, one pen.

Arrange left to right in the order you remember them.

Stop after writing one date or word per scrap.

One-color story

Three scraps sharing a color.

Vary their size. Put the smallest near your focal point.

Stop when there is space for one sentence.

Keep a blank place

Two scraps, one blank card.

Place the card first. Frame two sides with your scraps.

Stop when a sentence fits without crossing decoration.
